PROFESSIONAL SUMMARY

Technical Lead with 13+ years in software engineering — a decade of deep Magento/e-commerce architecture experience, followed by a recent transition into microservices, event-driven systems, and engineering team leadership. Currently leads a team of 10+ engineers at ThinkSys, owning a production communications platform (Twilio + Mailgun, Kafka-based dispatch) and directing the design of a next-generation automation engine replacing a legacy rules system. Comfortable operating across the full stack — from PHP/Magento e-commerce systems to Ruby on Rails, React.js, and AWS-based microservice architectures.

PROFESSIONAL EXPERIENCE

ThinkSys Software Pvt. Ltd.
Associate Project Lead / Team Lead

Noida, India
Aug 2019 – Present

AnyoneHome (Inhabit) — Communications Platform & Microservices Architecture Oct 2025 – Present

- Leads a team of 10+ engineers owning the platform's communications module — Twilio + Mailgun integration and Kafka-based automated messaging — supporting ~400,000 messages across email and SMS every 7 days.
- Leads the team designing and building a next-generation automation platform ("Playbook") to replace a legacy flat rules engine — personally directing architecture decisions and reviewing all implementation, introducing enrollment-gated membership, stage-based customer journeys, and per-property trigger overrides.
- Coordinates with 4 other engineering teams on shared platform architecture and API contracts.
- Owns the message delivery lifecycle — bounce handling, opt-in/opt-out compliance, delivery-status reconciliation — for a live system spanning 150M+ historical records and 6,800+ active automation rules across 200+ customer accounts.
- Operates services on AWS EKS with CircleCI-driven CI/CD across dev/UAT/RC/production; Docker-based deployment.

CaptainU.com (Stack Sports) — Collegiate Sports Recruiting Platform, Team Lead May 2024 – Sep 2025

- Led a Ruby on Rails (microservices) and React.js engineering team developing and enhancing platform features, third-party integrations, and business workflows for a collegiate sports recruiting platform used by millions of athletes and coaches.
- Owned technical solutioning end-to-end — sprint planning, code reviews, task allocation, and mentoring — while collaborating with product and cross-functional teams to deliver scalable, maintainable features and ensure application performance and reliability.

Magento E-Commerce Engagements Aug 2019 – Apr 2024

- **proworldinc.com** — Led the Magento 2.3.5 → 2.4.6 upgrade, implemented Dockerization, and supported the Jenkins deployment pipeline.
- **abatix.com** — Managed a B2B Magento store synchronized with Epicor P21 & Akeneo PIM; implemented client-specific integrations (Hubspot, ShipHawk, Element Express); developed custom REST APIs; led the Magento 1.14 → 2.4.6 migration.
- **spacemantra.com** — Contributed to a new Magento 2 store build, including theme customization and custom module integration.
